Products & Services Portofolio

1. Agricultural Sector

2. Energy Sector

3. Construction Sector

4. Welding Sector

5. Spare parts

6. Procurement

7. Client Commitment

1. Agricultural Sector

The Irrigation Systems solutions we provide are made in Europe by a company established in 1979 as a manufacturing firm of irrigation machines, using the thirty-year experience of its founders in the field of agricultural machineries.

The company we represent are one of the most important manufacturing industries of irrigation technologies for the water and fluid movement operating worldwide.

Product Line

1.1 Irrigation and Water pumps

Fixed and turntable Turbocar irrigation machines

Hydraulic Turbocar irrigation machines and incorporated motor pump

Motor pumps for irrigation

1. Agricultural Sector

Product Line

1.2 Electro Pumps & Tractor Pumps

Agricultural pumps for motorized cultivator ; Agricultural pumps for Tractors ; Electro pumps

1.3 Mills

Crushing Mills for Agriculture – Corn, Cassava

1.4 Sugar Cane Crushers

Heavy Duty Sugar Crusher Machines

2. Energy Sector

Diesel powered generator sets remain the number-one choice for standby and emergency power systems, worldwide. From 3.5KVA to 3500 KVA of power potential, our diesel-fueled generator sets are built to world-class standards, for high efficiency, low fuel consumption and global emissions compliance.

Generator sets come in a range of options to match your power needs, making selecting and installing simple. Discover power designed for your demands.

Product Line

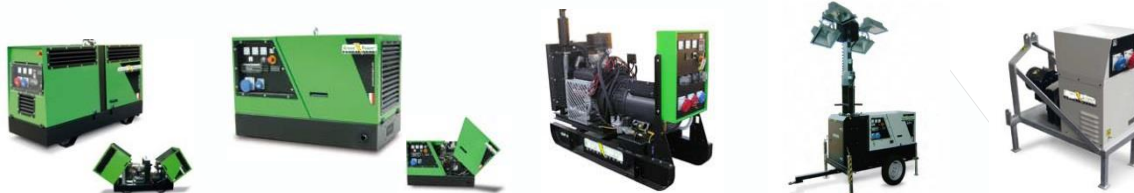

2.1 Power Generators

3000 rpm Gasoline and Diesel open frame & soundproof generating sets: **3.1KVA to 17KVA**

1500 rpm Diesel Open frame & Soundproof generating sets: **12KVA to 3500KVA**

Special generating construction solutions , Methane Gas Gensets, Lighting towers, Tractor Gensets

3. Construction Sector

To be able to compete in the construction business is necessary a 360° technical know-how approach to manage all factors under the most severe conditions. **WEmove** knows and therefore it makes use of the most advanced technologies and quality resources for all the industry needs.

WEmove knows and therefore it makes use of the most advanced technologies and quality resources for all the industry needs. **WEmove**, your choice for the best construction solution partner!

Product Line

3.1 Pumps

Column Vertical pumps, Motor pumps & Electrical pumps for Industrial applications

Self-priming motor pumps with Gasoline & Diesel engines

3.2 Dumpers

Dumpers can be equipped with water pump, moto welding & electrical generator

3.3 Electrical Panelboards & Switchboards

Electrical panel boards & switchboards : Water; Electricity; Gas; Telecommunication's

4. Welding Sector

In addition to being a supplier of Brazing alloys, Welding products and Machines, we are also a complete source for technical information and support. In *WEmove* we have a long time experience to provide all technical assistance to our partners

We have improved and developed our products and services to comply with specific sector requirements in the field of Brazing and Welding sectors.

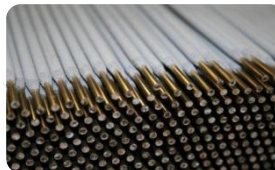

Product Line

4.1 Brazing Alloys

Silver Brazing alloys with or without cadmium - Copper-Phosphorus Brazing alloys – Brass Alloys

4.2 Welding Alloys

TIG and MIG process – Aluminum alloys, Copper alloys, Bronze alloys

4.3 Welding Machines

Motorized welding machines, Inverters, Mig-Mag machines, TIG machines

5. Spare parts

We move have a big range of spare parts suppliers. With the business partnership relation we have all this years we can guarantee to our customers, better value, faster delivery, larger product range, better quality and specialist products that are difficult to obtain elsewhere.

We working hard to ensure that all of our customer's expectations are exceeded in all solutions we provide.

Product Line

5.1 Generators Spare parts

Original Spare parts

Brands we working

6. Procurement

Wemove Procurement service consists of a search service on the market for products that meet the specific needs presented by each client.

Making Supplier our partner and through a solid relationship, meet the needs of our customers with products and services of the highest quality.

Service Line

6.1 Work Flow method

Procurement Process Work Flow – **HOW WE DO**

7. Client Commitment

Wemove works closely and with the greatest synergy with its customers, suppliers and collaborators, succeeding in the creation of strong and lasting relationships with them. The consolidation of these existing relationships brings us to carry out partnerships, that allow to have a wider offer diversification to our clients.

Our clients expect and deserve the best. As a company, we are dedicated to helping our clients achieve and maintain high levels of individual and organizational performance.

Excellence

ecofriendly

Our partners companies working with Highest quality standards
